23.   Problem: (use additional Sheets if necessary)
A Solaris 8 installation activity will be bundled with delivery of the ACSLS 6.0.1 PSR. The associated patches identified by ECS need to be provided for the installaton of the Sun Ultra machines supporting the new ACSLS 6.0.1 and running Solaris 8.

24. Proposed Solution: (use additional sheets if necessary)
Provide separate Solaris 8 patch bundle to lemmings for installation on the Sun Ultra machine to replace the t1drs02 host for the VATC ACSLS upgrade. This bundled Solaris patch will be installed only for Solaris 8 machines supporting the ACSLS host configuration.

25. Alternate Solution: (use additional sheets if necessary)

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)

27. Justification for Emergency (If Block 15 is "Emergency"):
